

CAD DRAUGHTSPERSON

Based in North Shields, Tyne & Wear Astral Control Services is an Automatic Heating and Ventilation Controls company, specialising in providing Automatic Controls Solutions using computerised Building Management Systems (BMS).

THE JOB - CAD Draughtsperson

Due to continued success we are now looking to recruit a qualified/trainee CAD Draughtsperson. The main purpose of the role is to produce detailed Electrical drawings for Heating and Ventilation Control Panels. A knowledge of the practical application of engineering design principles along with good numeracy and computer literacy skills is necessary.

Candidates should have knowledge of AutoCAD, Promis-e, and Microsoft Office Packages with emphasis on knowledge of ACCESS, along with an understanding of manufacturing processes and construction methods. Also must have creative analytical skills with creative flair.

Must be able to work as part of a team and to strict deadlines.

This is a full time position, based within the offices of Astral Control Services Limited.

Hours of Work: 8:30a.m. – 5:00p.m. (1/2 hour lunch)

Own vehicle with full driving licence, would be advantageous.

REMUNERATION

Circa £18-£20K per annum (depending on experience), 21 days holiday per annum

There will be a probationary period of six months and at the end of this time we would expect you to have a greater understanding of CAD packages in use. To be familiar with Control Panel wiring diagram layouts with a basic knowledge on completing project files and operating and maintenance manuals. Should have a better understanding of Heating & Ventilation Automatic Control wiring diagrams. Will have learnt about electrical components and safety devices and general knowledge of building services.

If you believe you have the right experience please forward your CV and covering letter to Anne Stogdale email: annestogdale@astral.uk.com
